

Vehicle Care

CLEANING STRIPES OR GRAPHICS

It is recommended to wash your vehicle by hand however, pressure washing may be used under the following conditions:

- Use a spray with a 40° wide spray angle pattern.
- Keep the nozzle at a 12 in (305 mm) distance and 90° angle to your vehicle's surface.
- Do not use water pressure higher than 2,000 psi (14,000 kPa).
- Do not use water hotter than 179°F (82°C).

Note: Holding the pressure washer nozzle at an angle to the vehicle's surface may damage graphics and cause the edges to peel away from the vehicle's surface.

CLEANING CAMERA LENSES AND SENSORS

We recommend that you only use lukewarm or cold water and a soft cloth to clean the camera lens and sensors.

Note: Do not pressure wash camera lens and sensors.

CLEANING THE HARD TOP

We recommend that you only clean the hard top in the following way:

1. Use a sponge to remove dust and loose dirt on the hard top surface.
2. Wipe the surface with a soft, damp cloth and a mild soap and water solution. Dry the area with a clean, soft cloth.
3. Make sure the surface of your hard top is dry before applying a small amount of conditioner or spray wax.

4. For additional information and assistance, we recommend that you contact an authorized dealer.

Note: Test any conditioner or spray wax on an inconspicuous area before applying broadly.

Note: Do not use alcohol containing cleaner or any type of solvent on the hard top surface.

Note: Do not use power tools, paste wax or polish on the hard top surface.

CLEANING THE UNDERBODY

Regularly clean the underside of your vehicle using water. Keep body and door drain holes free of debris or foreign material.

CLEANING THE INTERIOR

CLEANING THE INSTRUMENT PANEL

WARNING: Do not use chemical solvents or strong detergents when cleaning the steering wheel or instrument panel to avoid contamination of the airbag system.

We recommend that you only clean the instrument panel and cluster lens with a damp soft cloth. Dry the area with a clean, soft cloth.

For additional information and assistance, we recommend that you contact an authorized dealer.

Note: Avoid cleaners or polishes that increase the gloss of the upper portion of the instrument panel. The dull finish in this area helps protect you from undesirable windshield reflection.
