FINAL INSTALLATION CHECKLIST

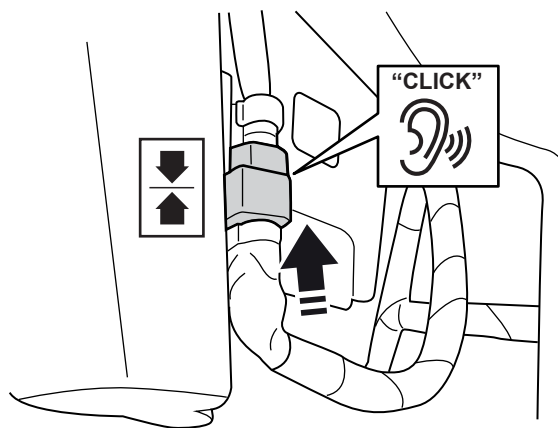

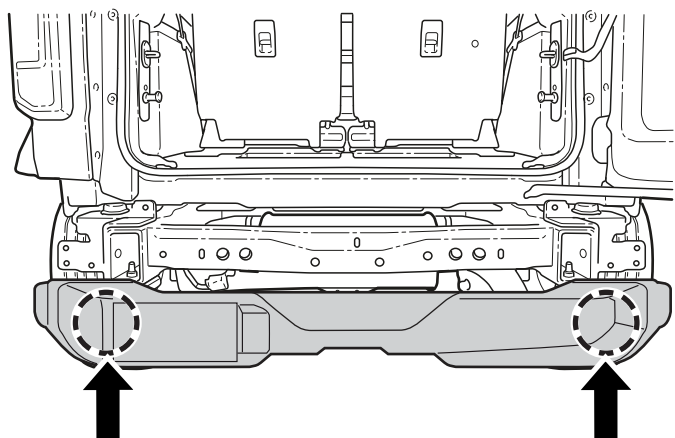

! **IMPORTANT:** Be certain the keyless entry antenna is properly reconnected inside trim panel. Also check that cargo lamp is functioning properly.

☐ **CONFIRM BY CHECKING THE KEYFOB FUNCTIONALITY FOR KEYLESS ENTRY AFTER THE INSTALLATION. CHECK CARGO LAMP FUNCTIONALITY.**

! **IMPORTANT:** Be certain the rear sensors are properly reconnected at the fascia. Also check that license plate lamps are functioning properly.

☐ **CONFIRM BY USING REVERSE ON THE VEHICLE AFTER THE INSTALLATION.**

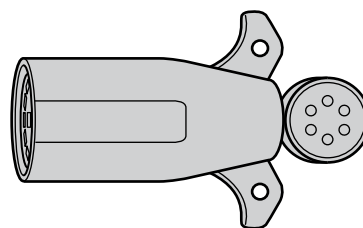

! **IMPORTANT:** Verify that you are using the latest programming procedure steps to update the vehicle.

☐ **CONFIRM BY USING A TRAILER TESTER ON THE VEHICLE AFTER THE INSTALLATION.**

VERIFY:

- ☐ REVERSE
- ☐ RIGHT TURN
- ☐ LEFT TURN

- ☐ BRAKES
- ☐ TAIL LIGHTS
- ☐ BRAKE CONTROLLER OUTPUT
- ☐ 12V POWER FEED

IMPORTANT: Do not attempt an installation within 5 days of the vehicle production date as a failure may occur with towbar configuration.

Be sure that the FDRS tool being used has the latest software version installed.

1 : Search "Towbar Configuration" in the top right search bar using FDRS.

1 : À l'aide du Système de diagnostic et de réparation Ford (FDRS), recherchez « Configuration du crochet d'attelage » dans la barre de recherche en haut à droite.

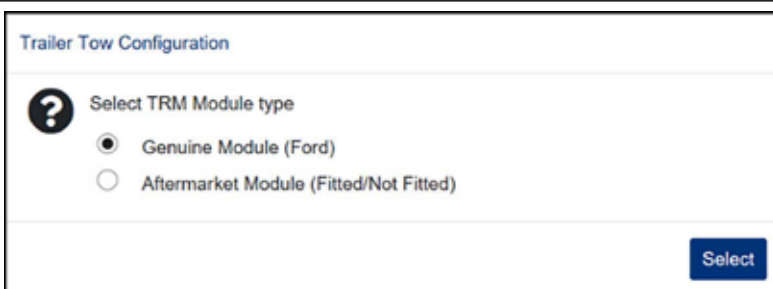

1 : Busque "Configuración de barra de remolque" en la barra de búsqueda superior derecha usando FDRS.

2 : Select "Genuine Module (Ford)."

2 : Sélectionnez « Module d'origine (Ford).»

2 : Seleccione "Módulo original (Ford)".

3 : Click "Yes" on enable/disable toolbar feature.

3 : Cliquez sur « Oui » pour activer/désactiver la fonction de la barre d'outils.

3 : Haga clic en "Sí" en la función de habilitar/deshabilitar la barra de herramientas.

4 : Select "Trailer to programmable feature enable/disable".

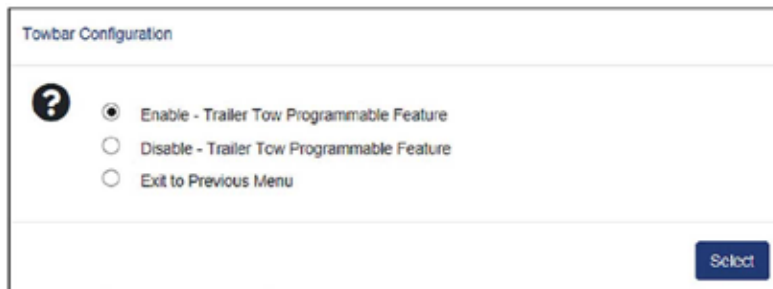

4 : Sélectionnez « Activer/désactiver la fonction programmable de la remorque ».

4 : Seleccione "Remolque para programar la función habilitar/deshabilitar".

(CONTINUED) (SUITE) (CONTINUADO) ➡

- 5: Click "Yes" for "Are you running this application to enable/disable."
- 5 : Cliquez sur « Oui » pour « Cette application est-elle en cours d'exécution » pour activer/désactiver la fonction.
- 5: Haga clic en "Sí" para la pregunta "¿Está ejecutando esta aplicación para habilitar/deshabilitar?".

Procedure Unsuccessful.

The Genuine Ford TRM option was selected at the start of this application.

If a Genuine Ford TRM is not being fitted to the vehicle, then rerun the application and select the correct TRM option.

If a Genuine Ford TRM is being fitted to the vehicle, then the required TRM data is missing from this vehicle's record.

The TRM data is added to the vehicle record by fitting a TRM to the vehicle and then running the Network Test. If this has been not performed, exit this application, and do that before running this application again.

If the TRM has been fitted and network test run, then the TRM data has failed to be added to the vehicle's record. To add the TRM data to the vehicle record, run the Extended Network Test as follows:

1. Exit this application.
2. Click the envelope icon in the top right of the screen.
3. Select the 'Refresh Vehicle Files' option and then Continue.
4. Read all screen prompts and select OK. When prompted to select a VIN, select the VIN of the vehicle being worked on from the list or read the VIN from the vehicle and then select Go.

Once the Extended Network Test has been completed, the TRM should appear in the list of modules under the Toolbox section. If the TRM is in that list then this application can be run again, but if it is not, please contact the Hotline.

LIMITED WARRANTY
