

Two end pieces are mirror images of each other. Cylindrical shape allows position on spool to be adjusted by rotating.

This edge slips into spool gap

Center extension piece for longer spools

Pieces held together via screws or snaps

If snaps, use raised edge to allow access from outside

This edge slips into spool gap

Rough dimensions:
Radius of 3.5" (TBD)
Arc of 120 degree
Length of End Piece 4.25"
Length of Ext Piece 0.5", 1.5"
